

# ELECTRIC VEHICLE CHARGING SOLUTIONS

## RESIDENTIAL CHARGING SOLUTIONS

Homeowners appreciate simple, easy-to-install and user-friendly solutions for charging electric vehicles at home. Our charging stations, which are compliant with IEC 61851, feature intelligent communications and cutting edge technology to satisfy your daily charging needs.

## COMMERCIAL AND FLEET CHARGING SOLUTIONS

Fleet and commercial customers can rely on us to help future-proof investment. Our charging stations feature remote monitoring applications and software integrations with billing capabilities.

## FAST-CHARGING SOLUTIONS

We serve a growing market of customers that require access to quick solutions. Our complete offering will provide you with everything in which you need, from personalised site planning to certified installation.

## SAY HELLO.

If you have any questions about EV charging, or you would like to book in for a pre-inspection audit feel free to contact us on 0800 EV CHARGE (0800 38 24 27 43). We're available to take your call between 9am to 5pm NZST. Alternatively, complete the online form via the QR code and we'll get back to you within 48 hours.

## EVNEX

The E & X Series charging stations are cloud connected and can be easily managed via smart-phone app. Built in DC leakage current detection. Choose between 7.4kW single-phase or 22kW three-phase.

## wallbox

plug & drive

Wallbox Pulsar Plus is a practical, intelligent charging system for electric vehicles and plug-in hybrids, which connects to the myWallbox charging management platform using Wi-Fi or Bluetooth.

## THE FUTURE OF TRANSPORT IS ELECTRIC

Chargemaster makes it easy for you to future-proof your charging needs.

We offer a complete range of electric vehicle charging solutions - chargers, software, and services. Our chargers are compatible with all EV models, powered by cloud software, and installed and serviced by certified professionals.

With every charging packaging we are able to offer a no-obligation audit of your home or business. Each pre-inspection will have our electrical partners assess the electrical capacity of your site. Chargemaster will then provide you with professional recommendations for hardware and installation. *\*Please note each site audit fee is \$135+gst. This fee will be credited to the final cost of your project upon acceptance.*

### SIMPLICITY

We provide easy to install and user friendly charging solutions. Long-standing relationships with reputable brands.

### EFFICIENCY

We deliver leading EV solutions through our Nationwide electrical contractor network.

### COMPATIBILITY

We have an industry-leading position in residential and commercial installations.
