

Following the devastating effects of Cyclone Gabrielle earlier this year, Clubs across New Zealand expressed a desire to offer support to members of the club community. Clubs New Zealand was able to facilitate this support by establishing the Clubs New Zealand Cyclone Relief Fund.

We are very proud to confirm that as of today more than \$18,000 has been contributed to the fund by your fellow clubs and their members.

We now wish to open applications for the distribution of the funds to clubs directly impacted by Cyclone Gabrielle.

Clubs that were directly impacted or located in communities directly impacted by Cyclone Gabrielle can apply for funds. You will need to tell us how your club/community was impacted by the Cyclone, along with how you intend to use any funds received for the benefit of the members/community.

Completed applications should be sent to [larry@clubsnz.com](mailto:larry@clubsnz.com) by 30 April 2023 for consideration.

*It is important to note that use of these funds must benefit the club community (members and wider community) and cannot be used for personal gain.*
