

Clubs NZ 2019 National Euchre Tournament

Remit for consideration at the Delegates meetings of the 2019 Nationals and the 2019 North Island Tournaments

Although both the National and the North Island Clubs NZ Euchre tournaments are a singles event, there are trophies played for at both tournaments for a team event. Currently the only rule controlling this is that the players in the team must be from the same Club and also the number constituting the team. There is a remit also before this meeting for the team numbers to be reduced from 8 to 6.

The Porirua Club Euchre Adjunct submit the following remit:

Remit:

Rules for Team Participation.

1. The score for each team is calculated from the scores of all team participants over all applicable rounds of play. (For the Nationals, that is from the four rounds on the Saturday of play and for the North Islands that is from the seven rounds of play for the entire tournament.)
2. The team participants must be the same named players for the entire time of the team event
3. If a player is unable to play for the entire rounds of the team event then the following will be done:
 - a. The player will remain in the singles event but not in the team event.
 - b. The next person on the Club entry will replace the original player for the whole of the team event with the replacement player's scores being used throughout the team calculation.
4. If the Club does not have a player to replace the person who is unable to complete the team rounds, then the Club cannot be included in the team event.
