General business

There were a couple of issues with some players and there were no emergency contact numbers in the booklet that they could contact. It was acknowledged that this was an omission and should be included.

The question was asked how was it decided who goes through? This is done through a computer program, the wins ends are entered and the results and the differences are worked out. It was noted that this is the first time that we have had three sections rather than four. These rules have not been changed since 1995.

It was noted last year about previous winners being printed in the book. The committee has asked for the information but it was an oversight in the printing and we apologise for that.

Dave Grant explained that had been looking after a lot of this but due to a medical emergency a lot of things had to be taken over by others. He apologised for any errors but felt they had done a reasonably good job. He wished Hamilton all the best.
